

1HP GRINDER PUMP

FOR CHALLENGING RESIDENTIAL APPLICATIONS

RIVAL 1HP Grinder Pumps are engineered to vigorously reduce solids in residential sewage applications where basic sewage pumps continue to clog and underperform.

- **Axial Cutter:** Provides Superior Non-Clogging versus Radial designs
- **Motor Options:** 115V and 230V
- **Retrofit:** Designed for drop in retrofit to replace any existing small horsepower residential sewage pump and other 1HP grinder pumps
- **Float:** Available in manual and automatic designs
- **Non-Overloading:** Built to handle varying flows without wear

PUMPS

APPLICATIONS

LAVATORIES

LAUNDRY TUBS

FLOOR DRAINS

WATER CLOSETS

PIT PRO FEATURES

- Removable FloatTREE design for easy float maintenance; flange includes provision for optional alarm float
- Split cover allows simplified basin access
- Sidewall ribs lock basin in place when concrete floor is poured
- Inlet hubs easily connect to piping with flexible rubber connectors (provided by others)
- Ribbed floor limits pump torque rotation
- Liquid Temperature 104°F (40°C)
