Body – Rugged cast iron Pump and Motor Shaft – 416 Stainless Steel Impellers – Noryl® Diffuser – Close-grained cast iron

## FEATURES

Automatic Pressure Regulator -Faster-acting and quieter, design eliminates "hunting" for correct drive pressure. New improved stem and guide are precisely molded to assure efficient, trouble-free performance on all deep wells.

Noryl<sup>®</sup> is a registered trademark of General Electric Co.

All other brand or product names are trademarks or registered marks of Pentair Ltd.

**Quality Construction -** Precisionmachined, close-grained cast iron pump body and base are specially treated to resist corrosion.

**Noryl® Impellers -** Precision molded for perfect balance, and ultra-smooth for highest performance and efficiency.

**Pressure Switch -** High quality. Differential and cut-in/cut-out pressure settings are adjustable.

**Motor Windings -** Superior insulation materials protect against excessive moisture and contaminants to ensure prolonged motor life.

**Mechanical Shaft Seal -** Precision lapped and highly polished carbon-ceramic, stainless steel construction. Internal design guarantees continuous water lubrication for maximum protection.

**Dustproof Cover -** All electrical components are protected from dirt, dust and insects by a dustproof canopy. Ventilating air cannot contaminate vital switching components. This eliminates the most common cause of motor failure.

**Balanced Rotor -** Rotor is die cast under high pressures for uniform performance and greater efficiency; dynamically balanced.

### Heavy-duty Ball Bearings -

Permanently lubricated sealed bearings are extensively tested to ensure extended life and smooth, quiet operation.

**Pump and Motor Shaft -** One piece threaded shaft for positive impeller drive and alignment. Shaft is stainless steel for maximum corrosion resistance.
