

QLS SERIES[®]

PREFABRICATED LIFT STATIONS WITH Z-RAIL[®] TECHNOLOGY

- Factory-built lift stations for grinder pump, sewage ejector, and effluent pumping applications.
- Systems are factory assembled for quicker, easier installation at the jobsite.
- Zoeller's Z-Rail[®] Technology with powder coated, ductile iron elbows and brackets provides longer life and reliability.
- A wide variety of basin diameters and depths are stocked to accommodate almost any job.
- Cover choices include solid fiberglass and either steel or aluminum hatches.
- Custom systems with Z-Rail[®] Technology are available.
